**AMENDMENT AFTER ALLOWANCE
UNDER 37 CFR § 1.312(a)**

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the telephone call from Mrs. Kay Pinkney of the Quality Assurance Division (703-305-0333, X144) and the Notice of Allowance mailed January 18, 2005, please amend the above-identified application as follows:

Amendments to the Specification begin on page 2 of this paper.

Remarks/Arguments begin on page 3 of this paper.

Appl. No. 10/003,847
Amdt. dated April 5, 2005
Response to Notice of Allowance January 18, 2005

PATENT

Amendments to the Specification:

Please replace paragraph 44 with the following amended paragraph:

[44] The OTN apparatus and methods described above can also be used in a one-time password scheme. In such a scheme, the user system would generate a one-time password to use and pass the one-time password to an issuing system (such as a network controller) that would compare what is received from a log-in system before allowing access. For example, in a system described in U.S. Patent Application Nos. 09/896,560, filed June 28, 2001, entitled "Methods for Pre-Authentication of Users Using One-Time Passwords," and 09/896,163, filed June 28, 2001, entitled "Apparatus for Pre-Authentication of users Using One-Time Passwords," which are incorporated herein for all purposes, a user requests a one-time password from a server, and the server issues a one-time password that can be used for network access, if the server's authentication and challenges are successfully dealt with by the user.

Appl. No. 10/003,847
Ammdt. dated April 5, 2005
Response to Notice of Allowance January 18, 2005

PATENT

REMARKS

Entry of this amendment is respectfully urged since it merely cures a formality with regard to clarifying the pendency of the two applications mentioned in the specification.

Respectfully submitted,

Babak Kusha
